

Dockets Management Branch (HFA-305)
Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular,
I OBJECT to the definition of "inordinate amount" which restricts the availability
and the right to obtain medically necessary compounded medications by limiting
the number of prescriptions that can be shipped across state lines from specialized
compounding pharmacies.

COMMENTS: I strongly object to the interference of the FDA into the
restrictions of shipping compounded medicine across state lines.
It has taken me 18 years to find some means of help for
my hormone replacement therapy. My doctor tried time and again
with conventional "one size fits all" hormones only to fail again and again.
The side effects from these medications were as bad as the symptoms
from lack of hormones. Before discovering compounded medicine
I had spent days, weeks, and even months not being able to function
through my daily routine. From lack of sleep I suffered with
high anxiety and felt as if I was going through life in a fog. It even
affected my driving. These past 9 months, since I have been on
compounded natural hormones, I feel that I have gotten my life back.
For this I applaud Madison Pharmacy Associates, Inc. Also, with
the periodic re-testing I am able to keep on top of my needs.
Not only does this help me now I also will benefit from this
as I am keeping osteoarthritis in check since I am at
considerable risk for this disease. I feel if you choose to
legislate restrictions on shipping compounded medication
across state lines you will be doing a great injustice
to many women. I beg you NOT to make such
a mistake!!!

Sincerely,

98N-1265
